

# Devyanshu Negi

Uttarakhand, India | devyanshunegi@gmail.com | 8899209614 | LinkedIn | LeetCode

## Technical Skills

**Languages:** Python, JavaScript, SQL, C++  
**Backend / Tools:** Node.js, Express, Prisma, Playwright, n8n  
**Infrastructure:** Docker, PostgreSQL, MongoDB  
**DevOps / Cloud:** AWS, Linux (Ubuntu), Git, Nginx, Vercel  
**Protocols:** TCP/IP, SMTP, DNS, HTTP/REST

## Experience

**Software Engineer (Part Time)**, Yellow Tribe – Remote Oct 2025 - Dec 2025  
*Performance marketing startup (\$1M+ revenue)*

- Built an automated web scraping system using **Playwright** and **Node.js**. Containerized with **Docker**, saving the team **15+ manual hours per week** and enabling more client capacity.
- Built an **n8n** email automation bot that categorizes and responds to client inquiries, cutting response time by **90%** and saving **80+ man-hours monthly**.
- Deployed automated ASO data scrapers on **Apify** to collect app store optimization data for client reports, processing thousands of data points daily and directly contributing to revenue.

**Open Source Intern**, FOSSEE, IIT Bombay – Remote Feb 2026 - Present

- Built an intern management platform from scratch to organize **60+ concurrent** and **500+ past interns**. Migrated a decade of scattered spreadsheets and Word documents into a clean **PostgreSQL database**, enabling real-time progress tracking.
- Created dashboards with search, filters, and work assignment features using **Next.js** and **Prisma**, directly increasing mentor productivity and streamlining intern management workflows.

## Freelance Projects

**Freelance Backend Engineer – Remote** May 2024 - Present

**Longevity Clinic Management Platform** – Next.js, Node.js, PostgreSQL Jan 2026 - Mar 2026

- Built a full-stack platform with 3 user roles (Admin, Practitioner, Patient). Includes interactive dashboards, historical data tracking, and AI-powered health suggestions.
- Handles end-to-end patient data management for active clinic clients.

**Inventory Management SaaS – Asset Assign** – Next.js, Prisma, Stripe Nov 2025 - Feb 2026

- Shipped a **\$99/year SaaS product** for marquee and inventory reservations. Integrated real-time **Google Calendar sync** and **Stripe payments**.

## Personal Projects

**Custom TCP Chat Protocol** – Node.js Oct 2025 - Dec 2025

- Built a low-level chat protocol over raw TCP sockets. Designed binary message framing to handle packet fragmentation and reassembly across concurrent connections.

**Payments Platform** – Turborepo, Prisma, PostgreSQL Apr 2025 - May 2025

- Built a payments platform with peer-to-peer transfers using **Prisma transactions** and a webhook server for bank updates.
- Implemented a custom token verification protocol per transaction to prevent replay attacks.

## Education

**B.Tech in Computer Science – CGPA: 8.85** Aug 2023 - Aug 2027  
VIT Bhopal University

**CBSE XII (AISSCE) – 92.6%** May 2022 - May 2023  
Army Public School, Jammu Cantt

## Achievements & Leadership

- **Tech Lead, Software Development Club** (Dec 2024 - Dec 2025): Organized **multiple hackathons** including the AI-ZEN Hackathon (100+ attendees) and ran **10+ workshops** on Git and backend development – drove a **25% increase** in club registrations.
- **Competitive Programming:** Won 1st place in an intra-college CP competition with **1000+ participants**.
- **Open Source (Palisadoes Foundation):** Migrated 9 unit tests from Jest to Vitest in a repo with 1000+ forks, improving test-suite execution speed.
- **Sports:** College-level Table Tennis player, Under-19 Zonal Football player, and completed a 30 KM run.
