Uttarakhand, India | devyanshunegi@gmail.com | 8899209614 | LeetCode | LinkedIn |

Technical Skills

Languages:	Go (Golang), Python, JavaScript, SQL	Infrastructure:	Docker, PostgreSQL, MongoDB
Backend/Tools:	Node.js, Express, Prisma, Playwright, n8n	DevOps/Cloud:	AWS, Linux (Ubuntu), Git, Nginx, Vercel
Protocols/Systems:	TCP/IP, SMTP, DNS, HTTP/REST	Concepts:	REST APIs, Version Control

Experience

Software Engineer (Contract), Yellow Tribe – Remote Nov 2025 - Present

A high-growth performance marketing startup generating \$1M+.

- Architected a parallelized scraping engine using **Playwright** and **Node.js** for **high-throughput data extraction**. Optimized via **Docker containerization**, reducing manual workload by **15+ hours/week**.
- Engineered an **n8n** email bot to autonomously categorize and respond to client inquiries, cutting response latency by **90%** and saving **80+ monthly man-hours**.

Open Source Intern, FOSSEE, IIT Bombay – Remote Jun 2024 - Aug 2024

- Integrated **CodeRabbit AI reviewer** for automated pull request reviews, saving mentors and reviewers **20+ hours/week** on manual code review and improving code quality across multiple repositories.
- Dockerized the **eSim package** for cross-platform distribution via **Snap, APT, and Homebrew**, streamlining installation and deployment for users across Linux and macOS systems.

Freelance Backend Engineer, Remote May 2022 - Present

- Spearheaded migration of 2 SaaS applications (**\$100+ MRR**) from low-code tools to **Next.js/Node.js** backend. Integrated **Stripe payment ecosystem** with **PCI compliance** and server-side webhook validation with **idempotency guarantees**.
- Diagnosed and resolved critical **Prisma schema conflicts** in distributed microservice backend. Constructed 4 CRUD admin modules with **PostgreSQL**.

Tech Lead, Software Development Club Dec 2024 - Dec 2025

- Leadership**: Spearheaded the "**AI-ZEN**" **Hackathon** (100+ attendees) and directed technical workshops on Git and backend development, resulting in a **25% increase** in club registrations.

Projects

Distributed Email Verification Engine Jan 2026 - Feb 2026

Scalable SaaS backend for email verification using **SMTP** protocol.

- Built a high-concurrency email validation service using **Go (Golang)** and **SMTP**, processing verification jobs with automatic retry logic and **exponential backoff** for failed requests.
- Designed a cost-efficient routing system directing 70% of traffic through self-managed **VPS servers** and using external APIs for complex domains, reducing verification costs by **90%**.
- Containerized the application using **Docker Compose** for easy deployment across different environments.

Custom TCP Chat Protocol Oct 2024 - Dec 2024

- Engineered a low-level custom chat protocol using **Node.js net module**, implementing raw **TCP socket communication** for real-time messaging. Designed binary message framing to handle **packet fragmentation and reassembly** across concurrent connections.

Payments Platform Apr 2025 - May 2025

- Structured a scalable **Turborepo monorepo** architecture. Enforced **ACID-compliant** P2P transfers via **Prisma transactions** and deployed a **webhook server** for idempotent bank updates.
- Formulated a custom unique-token verification protocol for every transaction, preventing **replay attacks** and ensuring transaction integrity.

Education

VIT Bhopal University Aug 2023 - Aug 2027

- Bachelor of Technology in Computer Science - CGPA: 8.85

Army Public School, Jammu Cantt May 2022 - May 2023

- CBSE XII - AISSCE - 92.6%

Achievements & Leadership

- Leadership & Workshops**: Conducted **10+ technical workshops** on Git, GitHub, and backend development for **100+ participants** as Tech Lead, fostering a collaborative coding culture.
- Open Source (Palisadoes Foundation)**: Modernized a significant repository (1000+ forks) by migrating 9 unit tests from Jest to Vitest, improving test suite execution speed.
- Sports**: College-level Table Tennis champion and Under-19 Zonal Football player, demonstrating teamwork and competitive spirit.
